PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in Data Science and Artificial Intelligence, with hands-on experience in full-stack development, Generative AI, and technical training. Skilled in building intelligent applications, integrating APIs, and developing data-driven solutions. Proven ability to teach, mentor, and communicate complex technical concepts effectively, with a strong interest in solving real-world problems through software and AI.

EDUCATION

B.Tech – Computer Science (Artificial Intelligence & Data Science)

Dr. MGR Educational and Research Institute | 2023 – 2027

CGPA: 8.8

Class XII: 83%

Class X: 87%

TECHNICAL SKILLS

Programming & Development:

Python, Java, C, C++, MERN Stack (React, Node.js, Express, JavaScript, HTML, CSS)

Data & Analytics:

MySQL, MongoDB, SQL, Power BI, NumPy, Pandas, Matplotlib

AI & Tools:

Generative AI, RAG-based Systems, LLM Integration, API Integration, Playwright, Docker

Other Skills:

Python-SQL Connectivity, JDBC, JSP

Soft Skills:

Communication, Leadership, Mentoring, People Management

EXPERIENCE

Odyssey Technologies, Chennai

Technical Product Evangelist Intern | Feb 2026 – May 2026

- Conducted client demos and technical walkthroughs, translating product features into business value
- Closed implementations for Scope Global School (18 units) and BCS & Co (3 units)
- Led trials and onboarding for Techfruits, building a pipeline of 10+ potential implementations
- Generated leads through cold calling and follow-ups, including initiating entry into SPR City
- Supported product testing and ensured smooth client communication across teams

Apollo Computer Education, Chennai

Part-time Faculty (Software Department) | Mar 2024 – Jan 2026

- Trained 50+ students in programming fundamentals and advanced development concepts
- Delivered structured training in C, C++, Python, Java, SQL, and Full Stack (MERN)
- Guided students in real-world projects, debugging, and logical problem-solving
- Taught MSA curriculum including Python-SQL connectivity, JDBC, JSP, and web technologies
- Recognized for strong teaching ability and student engagement

Octopus Consulting Services, Chennai

Part-time Employee | Nov 2023 – Jan 2024

- Managed and updated website content including listings, visuals, and descriptions
- Improved SEO and ensured website performance and accuracy
- Handled social media platforms (Instagram, Facebook), increasing engagement
- Generated leads via WhatsApp, telecalling, and social channels
- Responded to customer queries and supported client conversion

PROJECTS

CareerLens – AI-Based Career Readiness Analyzer

MERN Stack | API Integration | Playwright | Docker

- Architected a full-stack AI platform to assess user career readiness and recommend relevant opportunities
- Developed an automated data ingestion pipeline using **Playwright** to scrape and aggregate real-time job and internship listings
- Designed and consumed RESTful APIs for dynamic data synchronization and personalized recommendations

- Containerized backend services using **Docker**, ensuring scalable and consistent deployment environments
 - Built a responsive React-based UI with filtering, ranking, and user-specific insights
-

IKS Edutainment Platform – RAG-Driven Learning System

MERN Stack | Retrieval-Augmented Generation (RAG) | Machine Learning

- Engineered a gamified learning platform integrating **RAG architecture** to enhance contextual content generation
 - Designed backend retrieval pipelines to fetch domain-specific knowledge and combine it with generative AI outputs
 - Implemented ML-based personalization to adapt content delivery based on user engagement and progress
 - Developed modular APIs for content generation, progress tracking, and adaptive difficulty scaling
 - Focused on improving response relevance and minimizing hallucination in generated outputs
-

Gamified Education Application – LLM-Powered Learning Interface

MERN Stack | Large Language Model (LLM) Integration

- Built an interactive learning platform leveraging **LLMs** for dynamic question generation and explanations
 - Designed prompt engineering strategies to deliver context-aware hints and feedback
 - Implemented user behavior tracking to dynamically adjust learning paths and difficulty levels
 - Enhanced engagement through real-time responses and adaptive content delivery mechanisms
-

Trackify – Full Stack Expense Management System

MERN Stack

- Developed a scalable expense tracking application supporting **real-time CRUD operations** and multi-user data handling
 - Designed RESTful APIs for transaction management, authentication, and analytics processing
 - Implemented interactive dashboards for expense categorization and visualization
 - Optimized MongoDB queries for efficient data retrieval and improved performance
-

RentWidUs – Cloud-Based Vehicle Rental Platform

Full Stack | Cloud Deployment

- Built a cloud-enabled rental system with booking workflows, availability tracking, and user management
 - Designed backend scheduling logic to handle booking conflicts and ensure data consistency
 - Implemented secure authentication and session management mechanisms
 - Developed a responsive frontend for seamless vehicle browsing and booking experience
-

Spell Corrector – NLP-Based Desktop Application

Python | Tkinter | Natural Language Processing

- Developed a GUI-based spell correction tool using **edit distance algorithms and tokenization techniques**
 - Implemented dictionary-based validation for improved correction accuracy
 - Designed an interactive Tkinter interface for real-time user input and correction feedback
 - Focused on optimizing performance for fast and accurate text processing
-

Sudoku Solver – Backtracking Algorithm Implementation

Java

- Implemented a Sudoku solver using **backtracking and constraint satisfaction algorithms**
 - Designed modular logic for grid validation, constraint checking, and recursive solving
 - Optimized algorithm efficiency to reduce computation time
 - Enabled dynamic puzzle input and automated solution generation
-

CERTIFICATIONS

- Master in Software Application (MSA) – Apollo Computer Education
- Python 101 for Data Science – IBM
- Introduction to Python – IBM
- Python for Data Science – NPTEL / IBM
- Deep Learning – Coursera
- Ethical Hacking – MSME Technology Development Center
- Build a Free Website with WordPress – Coursera

ACHIEVEMENTS & LEADERSHIP

- 1st Place – National-Level Hackathon (₹10,000 Prize) – New Prince College
- 1st Place – Department Data Science Hackathon
- Best Project award – MAHSA University Malaysia Hackathon – CareerLens
- Bronze award – MAHSA University Malaysia Hackathon, Degree level
- Research Contributor – Indian Knowledge Systems (IKS) Initiative
- Awarded for outstanding coordination of TechVistra '25 (National-Level Symposium)
- Event Coordinator – SDG Ethios (planning and execution)
- Conducted AI & Data Science sessions at:
 - Shenoy Nagar Corporation School
 - Faith Home Orphanage
- Recognized with official certification for ISR initiatives
- Multiple intercollegiate wins (technical & non-technical events)
- Badge Holder – Data Science Association

PERSONAL INFORMATION

Languages: Tamil, English, Hindi

Address: Kilpauk, Chennai – 600010

Date of Birth: 6 July 2005

Location: Chennai
