PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in Data Science and AI, skilled in MERN, Python, SQL, and Generative AI. Experienced in teaching programming, with strong communication and people management skills, seeking a Data Science or Software Development role.

EDUCATIONAL QUALIFICATIONS

B.Tech – Computer Science (AI & Data Science)

Dr. MGR Educational and Research Institute | 2023 – 2027 | CGPA: 8.8

Class XII: 83%

Class X: 87%

SKILL

Languages & Web: Python, Java, C, C++, MERN (React, JavaScript, HTML, CSS)

Data & Databases: MySQL, MongoDB, Power BI, NumPy, Pandas, Matplotlib

AI & Tools: API Integration, RAG-based Systems, Generative AI, Playwright, Docker

Soft Skills: Communication, Leadership, Mentoring, Multilingual(Tamil, English, Hindi)

EXPERIENCE

Octopus Consulting Services, Chennai

Part-time Employee | Nov 2023 – Jan 2024

- Managed website content and basic SEO
- Handled social media and customer engagement, generated and followed up on leads

Apollo Computer Education, Chennai

Part-time Faculty | Mar 2024 – Jan 2026

- Taught programming & MERN stack with hands-on projects
- Covered C, C++, Python, Java, SQL, and web technologies
- Mentored 50+ students on real-world development and problem solving

Odyssey Technologies, Chennai

Technical Product Evangelist Intern | Feb 2026 – May 2026

- Conducted product testing and delivered client demonstrations
- Explained technical features to technical and non-technical stakeholders

PROJECTS

CareerLens – MERN, API Integration, Playwright, Docker

Developed an AI-based career readiness analyzer with an automated scraping agent for aggregating internship and job listings

IKS Edutainment Platform – MERN, RAG, ML

Built a gamified learning platform using RAG and ML for dynamic content retrieval and personalized learning

Gamified Education App – MERN, LLM Integration

Developed an interactive learning system integrating LLMs for adaptive and engaging user experiences

Trackify (Expense Tracker) – MERN

Built a full-stack expense tracking app with real-time data handling and user-friendly dashboards

RentWidUs (Vehicle Rental System) – Full Stack, Cloud

Developed a cloud-based rental platform with booking management and user interaction features

Spell Corrector – Python (Tkinter)

Created a GUI-based NLP application for real-time text correction

Sudoku Game – Java

Implemented a logic-based Sudoku game using core Java concepts

CERTIFICATIONS

- Master in Software Application (MSA) – Apollo Computer Education
- Python for Data Science – NPTEL / IBM
- Deep Learning – Coursera
- Ethical Hacking – MSME Technology Development Center

ACHIEVEMENTS

- 1st Place, National-Level Hackathon (₹10,000) – New Prince College | 1st Place, Data Science Hackathon
- Best Project Award, MAHSA University, Malaysia (CareerLens) | Bronze Prize (Degree-Level, International Competition, MAHSA University, Malaysia)
- Research Contributor – IKS (Govt. Initiative), solution paper submission
- Awarded for TechVistra '25 coordination (National-Level Symposium, Data Science Dept.)
- Conducted AI & Data Science sessions (ISR: school & orphanage)
- Multiple intercollegiate wins (technical & non-technical)
- Badge Holder – Data Science Association
